FAIR SUNDAY

Ten Cents a Week

ITALIANS HAVE BROKEN THE AUSTRIAN LINES

Retreating Austrians Closely Pursued by Italians Who Pour Through Numerous Breaches in Isonzo Front.

FRENCH ADVANCE NEAR HILL 304

Capture of Peak Gives Italians the Command of Plain Insuring Success of Offensive.

By Associated Press Dispatch.
The Austrian line on the Isonzo front has been broken at several points by the Italians, it is announced officially at Rome.

The Italians, continuing the furious assaults between Tolmino and the Adriatic are now pursuing the retreating Austrians who are defending the difficult ground yard by yard. One of the most brilliant feats of the Italians was the capture of Montebello, 2245 feet high. This peak, 7 miles north of Gorizia, dominates the broad plain beyond that city and the occupancy of it has enabled the Austrians to hold up the Italian advance to the east since their capture of the city.

Having gained their principal objective on the Verdun front the French are completing their victory by local attacks to round out and secure their lines.

Profiting by the capture of Hill 304 yesterday they advanced last night to the north of it. The fortified works near Bethincourt were stormed.

Renewal of fighting in the Champagne may be forecast by the statement in the French report that violent artillery engagements are in progress there.

No further infantry actions on a large scale are reported by the British although they were successful in minor operations last night.

A German trench position west of Lens of local importance was captured with prisoners. Northwest of St. Quentin, there is increasing activity with heavy artillery fighting well under way.

THEY AGREE ON FLAT RATE

By Associated Press Dispatch.
Washington, August 25.—Senators favoring higher income and war profits taxes in conference today, agreed to reopen their fight Monday by proposing to take a flat 80 per cent of war profits.

OFFENDERS ARE NOT WANTED IN DEMING

By Associated Press Dispatch.
Deming, N. M., August 25.—To avoid disturbances which appeared imminent, preparations were made at noon today to transfer the battalion of the 19th U. S. Infantry stationed here, back to its former station at Columbus, N. M.

The decision was reached by military authorities as a result of threats of trouble between negro soldiers and townspeople, and the beating of an auto driver, alleged to have been the work of negro soldiers.

Train equipment was being assembled at noon under orders to entertain the command as soon as possible.

OUR ARMIES WILL NEED MILLIONS OF RIFLES; HOW THEY ARE NOW BEING TURNED OUT

Rifle factories may not be the busiest places in the United States in these war days, but they are safe places. Uncle Sam will need hundreds of thousands and perhaps millions of guns for his new armies. The pictures show three scenes in one of the biggest rifle factories in America. No. 1, finishing bayonet; No. 2, rifles near completion passing under Stars and Stripes and portraits of Washington, Lincoln and Wilson; No. 3, inspecting cartridges.

SQUABBLE TO BE ADJUSTED BY NEW BOARD

Arrangement Expected to Prevent Great Strike and End Most of the Labor Troubles During War.

By Associated Press Dispatch.
Washington, August 25.—Early and peaceable adjustment of labor disputes in shipyards is expected by the creation today of an adjustment board to consist of three, four or five members, according to the nature of the problems to be solved.

President Wilson appointed Everett Macy, of New York, president of the National Civic Federation, chairman of the board.

The second member will be named by Samuel Gompers, president of the American Federation of Labor, the Emergency Fleet Corporation naming a third.

In the event that a dispute involves the navy, assistant Secretary Roosevelt will sit as a member of the board.

When the trouble concerns a private shipyard a representative of local labor and local shipping interests will sit. The Secretary of War as chairman of the National Defense

THE WEATHER

Washington, August 25.—(Associated Press Dispatch)—Weather predictions for the week beginning Sunday, for the Ohio Valley, follow:
Fair and cool weather. Increasing cloudiness and possibly showers Thursday or Friday.

Council, will have the deciding vote in the case of a vote when Secretary Roosevelt, sitting on the board, raises the number to four.

By the creation of the board the signatories believe that the strike in New York will be settled and that the threatened strike of more than 100,000 men on the Pacific coast will be avoided.

Members of the board are confident they will be able to adjust all disputes, and will be able to prevent interruption of work throughout the war.

FRENCHMAN RENDERED AID

(Associated Press Cable)
Paris, August 25.—A French steamer went to the assistance of the American steamship Cantana which was torpedoed and sunk by a submarine on August 6th. The French vessel was attacked by both torpedo and gun fire but replied energetically and not withstanding losses compelled the submarine to abandon the fight.

On the arrival at an American port this week of 46 survivors of the Cantana it was reported that the submarine which sank the vessel and took prisoner her captain and five of the gun crew was destroyed on the same day by a French patrol vessel.

RUSS UNIONS OPPOSED TO CONFERENCE

Claim Moscow Conference Called To Deceive Masses And Call Strike—Militarize the Railroads.

(Associated Press Cable)
Moscow, August 25.—Labor unions are opposing the Moscow conference and have announced a one-day strike in protest. The leaders of the unions declared the conference to be "counter-revolutionary" and that it was not possible for democratic organizations to take part. They regard the conference as an effort to deceive the masses. Meetings in various factories were called for today.

TO MILITARIZE RUSS RAILROADS

(Associated Press Cable)
London, August 25.—A dispatch to the Times from Moscow says at the cabinet meeting in Petrograd on Thursday, General Korniloff, commander-in-chief of the Russian armies, demanded the militarization of railways which will probably be agreed to in view of the imminent general strike.

HEADS OF FAMILIES SHOULD BE EXCUSED ANNOUNCES WILSON

Single Men Should Be Taken Insofar as Possible, Especially for First Quota, He Declares.

New Ruling May Mean Complete Revision of First Draft Quotas.

By Associated Press Dispatch.
Washington, August 25.—President Wilson has written to Secretary Baker expressing a view that the drafting of married men who are heads of families should be carefully examined to avoid it if possible and expressing the view that single men should be taken wherever possible.

As the President is empowered by the draft law to make the regulation under which it is carried out, the effect of his letter is to throw his influence toward a more liberal policy for the exemption of married men than heretofore has been pursued.

It is no secret that the President's view is in open conflict with the interpretation placed at present upon the law by the army officers who are administering it. They contend that as the history of the law shows that Congress voted down amendments to exempt married men they have no legal authority to exempt them except on the ground of dependency alone.

President Wilson's view as forecast in his recent letter to Senator Weeks is that the taking of married men and the heads of families should be avoided at least on the first draft.

CARDINAL TO LEAVE LISBON UPON REQUEST

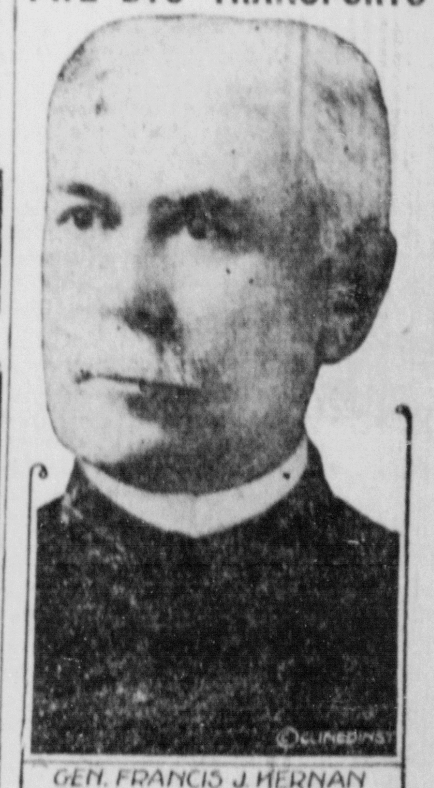

(Associated Press Cable)
Lisbon, Portugal, August 25.—Cardinal Anthony Mendes Bello, the patriarch of Lisbon, has been given five days by the government to leave the capital.

A decree forbids the cardinal to reside in Lisbon or its suburbs for one year.

In 1911 the Portuguese parliament passed a law providing for the separation of the church and state in that country. The law declared that the Roman Catholic religion was no longer the religion of the state.

The state appropriated all properties belonging to all churches, and announced that all churches must be maintained by offerings of their members.

DIRECTS MOVEMENT OF ARMY SUPPLIES AND THE BIG TRANSPORTS

A new division of the army general staff has been created to handle all business pertaining to the shipment of troops and supplies to Europe. Brigadier General Francis J. Kernan has been detailed as chief of the embarkation service, with Colonel Chauncey B. Baker of the quartermaster corps as his chief assistant. The new service will have direct supervision of all movements of supplies from points of origin to ports of embarkation and will control the movements of all army transports. All commercial shipping used for army purposes is also placed in General Kernan's jurisdiction.

PAPER MEN TO FACE CHARGES

Washington, August 25.—(Associated Press Dispatch)—Charges of concerted action to raise book paper prices were made by the Federal Trade Commission today in formal complaint filed against 23 manufacturers and the head of their bureau of statistics.

RIOTERS ARE HURRIED OUT OF HOUSTON

Negroes Dealt With By the Militia Instead of The Civil Authorities.

By Associated Press Dispatch.
Houston, Texas, August 25.—The negro soldiers of the 24th Infantry who Thursday night took part in the rioting in the streets that resulted in the death of 17 persons were taken from here and started toward Columbus, N. Mexico, early today.

Among them were 34 men charged with murder by District Attorney John M. Crocker. The entire 633 members of the battalion which came here four weeks ago to guard camp Logan during construction, were entrained by daybreak and shortly after the train started westward.

By Associated Press Dispatch.
Houston, August 25.—The fate of the more than 100 negro soldiers who participated in the shooting is today entirely in the hands of the military, notwithstanding the action of district attorney John H. Crocker, in filing the murder charges against 34 of the men.

Major General Bell Jr., who arrived this morning from San Antonio and took command, indicated that there was slight possibility of any of the men being returned here for civil trial.

"I am not prepared to speak of the causes of Thursday night's trouble," General Bell said. "It is to be assumed however, that the negroes thought someone had slighted them. The 24th has fine army record. None of these men were implicated in the Brownsville trouble. At Columbus they behaved themselves."

Major General Bell announced later that Houston will be removed from martial law tomorrow. General Bell found the situation so well in hand that he sent back to San Antonio the battalion of the 19th Infantry brought here yesterday, and also ordered to Galveston the 250 men of the coast guard rushed from there Thursday night.

BOSTON MEN BOOST RATES

By Associated Press Dispatch.
Washington, August 25.—Boston coal dealers, the Federal Trade Commission reported today, with a few notable exceptions "did not hesitate" during the spring months of this year to "take advantage of the necessities of the public and charge for anthracite coal a price that netted them unreasonable margins."

The commission's report resulting from the investigation it made of the retail coal situation in several large cities, says individual dealers made margins of profits far exceeding the average, and that on egg coal alone five large retailers and three small dealers, during April, made profits greater than \$3.50 a ton.

SENATORS TAKE RECESS

By Associated Press Dispatch.
Washington, August 25.—After a brief session today the Senate recessed until Monday without action or debate on the war tax bill.

Absence of senators; conferences by both factions in the contest over raising incomes and war profits tax rates, and reluctant to spend the day in speech making, induced leaders to agree to the recess.

Passage of the bill next week is hoped for by some leaders, but some ten days or two weeks will be necessary in view of the increased tension over the incomes and war profits disputes.

SEC'Y PATTON PREPARES TO GO TO FRANCE

Leaves New York September 8 for American Camp in France, Where He Will Be Engaged in Y. M. C. A. Work—Will Be Commissioned Lieutenant.

Mr. Walter Patton, who went to New York City last Wednesday to confer with the International Y. M. C. A. committee concerning an appointment to a secretaryship in France, returned Saturday morning, and is preparing to sail from New York City for France on Saturday, September 8, on a steamer, name not announced.

On the ship will be twenty-five Y. M. C. A. men who will have charge of the work in France.

Thursday and Friday 150 Y. M. C. A. men were in session at the International building and the Woolworth building. Mr. John R. Mott, one of the leaders in Y. M. C. A. work in the United States, addressed the men Friday.

Each man who goes to France as a Y. M. C. A. secretary will wear a gray uniform and receive a commission as a lieutenant in the United States army. In order to get a passport, Mr. Patton had to be photographed, sworn and produce a witness. This is a war-time precaution.

Before leaving for New York Mr. Patton will visit at his home in Springfield for a week after arranging the work in this city. A board meeting will be held next week to fill the vacancy caused by Mr. Patton leaving.

While in New York Mr. Patton purchased a handsome solid gold Y. M. C. A. seal ring which will be presented to Lieutenant Robert Johnson by his friends in this city.

BUYS FINE CAR

Mr. Lewis Moore has had delivered to him one of the finest limousines which has been seen in this section of the country. It is a Cadillac eight Brougham, luxuriously lined and upholstered in grey auto velvet and fitted up with every new equipment and novel accessory.

The car is greatly admired by all who have seen it. Mr. Moore has owned a number of expensive cars, and his last car was burned up in a very unusual accident this summer.

SAME OLD STORY IN SAME OLD WAY

Virgie Sweeney, daughter of Mr. and Mrs. George Sweeney, of this place, attempted suicide by taking iodine one evening this week. It is said that the young lady was despondent because she was not allowed to keep company with a certain young man, of New Vienna.

The attempt was made following some disagreement at home. The young lady purchased a quantity of the deadly fluid and was discovered in the act of taking it by her father, who forced the bottle from her before she had taken all the contents.

Medical attendance was promptly called and her life was saved, although her throat was badly burned.—Leesburg Citizen.

BIG HOG RAISER

Isaac Riegel at Cedar Hill, Fairfield county, is one of the largest if not the largest grower and feeder of hogs in Ohio.

This week he sold to Frank Thimmes, of Lancaster, 255 head of porkers which averaged in weight about 240 pounds, the purchase price 18½¢ per pound. The total purchase price in dollars amounted to \$10,498. And this is not all, Mr. Riegel has yet in feeding 350 head to go into market a little later.—Circleville Union Herald.

SCHOOL BUILDINGS IN UNION ARE SOLD

Two of the abandoned school buildings in Union township were sold at public auction, Friday, the Draise school on the Circleville pike east of this city being purchased by Judge F. G. Carpenter at his bid of \$1100 and the Midland College building being sold to O. O. Bush, at \$500.

The two buildings include the lots upon which they are located.

DIES IN HOSPITAL

John Brandon, colored, of Bloomington, who was adjudged insane several weeks ago in the Probate Court at this city, and placed in the State Hospital at Columbus, died Friday from a complication of diseases.

When taken from this city to the hospital he was nearly blind and in a very feeble condition. The body was brought from Columbus Saturday morning by Undertaker Klever.

FRENCH CHILD WRITES THANKS FOR AID GIVEN

Miss Rosalie Katz, Daughter of Mr. and Mrs. Leo Katz, Receives Missive From Fatherless Child Adopted in France. Letter Is Translated.

Sometime ago Miss Rosalie Katz, daughter of Mr. and Mrs. Leo Katz, adopted a little, fatherless French child in the district of Lozere, for the purpose of providing for the child until after the war, and some two months ago sent the child sufficient funds for quite a while.

Friday a letter came from the child's brother, enclosing a certificate from the mayor of the town in which the children reside. Both were written in French.

Miss Helen Jones, one of the very few French students of this city, kindly translated the letters, and the following beautiful expression of thanks from the children is the result of the translation:

"Frassinet de Fourques, 26th of July, 1917.

"My very good god mother: "I am hastening to write down to you some words in order to thank you for your kind aid which you have extended to me. I see that near my sad moments that I passed in having lost my dear papa in war, I have found in you dear benefactress kind aid in procuring me the remainder of the happiness near my dear mama. And she too joins me in testifying her gratitude and making you these thanks. Dear god-mother, I told you that when we were enjoying the happiness of my dear papa in the time of peace then we had him always with us. He was a merchant following his trade which was that of being a tailor. I am going to cross my little saint, and thank you for the money received, dear god-mother, but more than ever the tender friendship. I have written this letter for my brother and myself.

"ALMIR AVESQUE." The letter from the mayor follows:

"Frassinet de Fourques, Lozere

"Mayor's Office

"Certificate of Birth.

"The mayor of the commune of Frassinnet de Fourques a canton of Lozere certifies that the child Almir Rene Avesque was born in Frassinnet de Fourques on the 15th of February, 1914 the son of Mariuse Avesque and of Fabre Avesque.

"On faith of which I have delivered the present at Frassinnet de Fourques on the 26th of July, 1917.

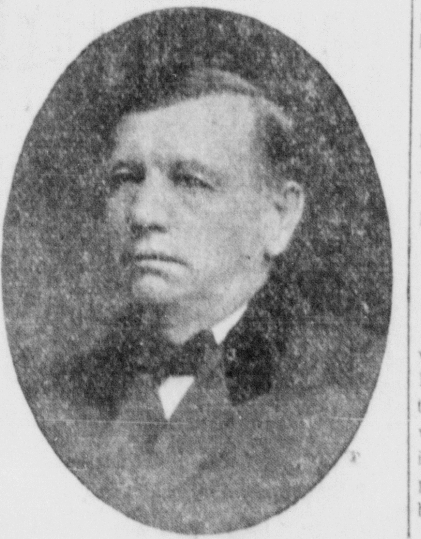

"Signed by the Mayor.

"VUEBOURG."

Little Miss Rosalie Katz is a member of a club of Columbus school children who have organized to care for a child in France.

In addition to joining with the club in caring for a French child, Miss Katz and her sister Anna Lee Katz on their own account agreed to provide for a French child orphaned by war.

By one of those strange turns of fortunes wheel the letter discloses that in the great war torn Europe the efforts of the club and the Katz children joined in the same house. The club was caring for the older brother and the Katz sisters for the younger brother in the same stricken household.

H. C. SHOOP. The man who makes the famous "Dandy Candy Popcorn Crispettes." Children cry for them. After eating four you will want more; 5 crispettes for 5c. Come and see me at Fayette Street Harness Store.

B. P. O. E. NO. 129

All members of B. P. O. E. No. 129 are requested to meet at hall Monday morning at 8:45, promptly, to attend funeral services of Brother H. C. Teachnor.

R. R. KIBLER, E. R. C. A. GOSSARD, Sec'y.

SENT TO HOSPITAL

Mrs. Emma Willis, of this city, was sent to the State Hospital at Columbus, Saturday morning.

HOUR CHANGED FOR FUNERAL SERVICE

The hour of the funeral services of Mr. H. C. Teachnor has been changed from 8:30 a. m. to 4 o'clock Sunday afternoon. They will be held at the home on North Fayette street and the family leaves with the body on the 9:30 B. & O. train Monday morning for Cincinnati, to make the interment in Spring Grove cemetery.

WELLS B. SOLLARS CALLED BY DEATH

Wells B. Sollars, belonging to one of the old families of the county and a highly esteemed resident, died at the Fayette Hospital at 5:30 Saturday morning, aged 72 years.

For some time Mr. Sollars has been in failing health although it was with difficulty that he could be persuaded to leave the active list and give up earlier activities.

Mr. Sollars was the son of Isaac Sollars, one of the early settlers, and most of his young life was spent at the Sollars homestead at Bunker Hill.

At the time of his death he lived with his daughter, Mrs. Homer Stewart, on the farm on Rattlesnake road, which has long been his home.

Mrs. Stewart and Isaac Sollars, three grand children, two brothers, Messrs. B. L. and Samuel Sollars and three sisters, Mrs. John Craig; Mrs. Joe Sheridan, of Sabina and Mrs. A. C. Nisley, of Selden.

He was a loyal G. A. R. veteran and will be missed by the comrades as well as by many friends and in the neighborhood of his long residence. Especially will the loss be felt by the children and grandchildren who are bereft of an affectionate father and grandfather.

Funeral services will be held Monday at Mt. Carmel Church in charge of Rev. Sudlow of Staunton and the G. A. R. followed by burial in the Washington cemetery.

39 PERSONS IN COUNTY INFIRMARY

Supt. Casey reports 39 inmates in the county infirmary, at the present time.

This number is slightly larger than usual at this time of the year, and is expected to increase quite a few during the next two or three months.

DRY CHAIRMEN TO MEET ON TUESDAY

By Associated Press Dispatch.

Columbus, O., August 25.—An all-day conference of county chairmen of the Prohibition Party of Ohio will be held in the Y. M. C. A. here Tuesday, August 28.

Vital subjects relating to the work of the chairmen will be taken up, including the state prohibition amendment. While the meeting is for the chairmen, invitations to all interested in prohibition have been extended.

It is expected that National Chairman Hinshaw of Chicago or some other representative of the National Committee will be present and speak. An address on "The Present Mission of Our Party" will be given in the evening by Dr. A. S. Watkins, twice candidate for vice-president on the Prohibition ticket.

O. E. S.

Regular meeting of Royal Chapter No. 29 O. E. S., Monday evening, August 27th at 7:30 o'clock.

CLARA B. DAVIS, W. M. MARGARET R. COLWELL, Sec'y.

STRAYED OR STOLEN

HE THINKS MICE JUST THE THING TO TAKE TO TRENCHES

WILL HE TAKE HIS MICE TO THE TRENCHES?

Dogs, goats and cats are seen often among the army mascots and some regiments have even been known to make pets of snakes and gila monsters and such. The man in the picture, a member of an eastern regiment, says he has an unusual pair of army pets, two mice which he says will go with him to the trenches when he and his comrades go abroad.

MARRIAGE BUREAU KEPT BY GERMANS

(Associated Press Cable.)

London, August 25.—A novel institution called the "Official Matrimonial Bureau" has been created at Magdeburg, Germany, under the auspices of the authorities in the Province of Saxony, according to advices received here.

At Magdeburg a central bureau keeps the records and arranges introductions for war-widows desirous of re-marrying and likely husbands among those whose wounds unfit them for further active service.

RATES REDUCED

By Associated Press Dispatch.

Mexico City, August 25.—To aid in the effort to make good the shortage of corn throughout Mexico, the Constitutional Railway lines have reduced the freight rates on corn imported from the United States thirty per cent.

The State War Board Says Today:

Attention, war gardeners: Make that old barrel in the backyard a "food arsenal" in the war against the Huns.

It's only the slacker who will let food go to waste. War garden cabbages, potatoes, beets, carrots, turnips,—all can be stored against war needs and high prices next winter.

Dig a pit deep enough so that the top of the barrel will be level with the top of the ground. Pile in the vegetables in layers, using only sound and perfect specimens. Cover the top with a layer of straw, then with soil or with alternate layers of soil and straw or manure. This covering should be compact and 12 inches thick or more.

Onions can be stored in an attic if the temperature is not below freezing. Pumpkins and squashes will keep in a cellar with a temperature of 50 to 60 degrees.

Many tomato vines have green tomatoes on them when first frosts come. Pull the whole vine before frosts, hang them upside down in a warm cellar or room. The green tomatoes will ripen, so that some can be eaten fresh as late as Thanksgiving.

BUSINESS CHANGE IN JEFFERSONVILLE

Mr. Bert Mock has taken over the clothing department of the Hull & Company store in Jeffersonville, and Mr. John Hull is retiring from the business to operate a farm which he purchased sometime ago.

The store has conducted a dry goods department and clothing department, and with the retirement of Mr. Hull only the clothing department will be continued, and will occupy the corner room of the block in which the firm has been located for many years.

Buy, sell, rent and find lost articles with Herald Want Ads.

NEW STORE SOON TO BE OCCUPIED

Chas. Coe & Son, who suffered heavily in the tornado which swept Bookwalter and vicinity last March, are erecting a new store building immediately north of the structure which they occupied for several years, and which was badly damaged by the tornado.

The finishing touches are now being added to the building, and it will be opened for business in the very near future.

The new centralized school building will be located a short distance north of the new store.

Our Right to Interfere

Judging from the remarks of a few public officials and entirely too many private citizens one is forced to conclude that there are some Americans who have not yet found out what the cause of the war is and why the United States entered the conflict.

It is really astonishing that any American citizen should, at this time, be asserting that the United States, and the other nations composing the world alliances against the central powers, have no right to dictate to Germany what the government of the Empire should be.

While in a measure, that is true yet the real and only cause of the world war is Prussian militarism and the Hohenzollern dynasty. None of the nations in the alliance, least of all the United States, has any desire to dictate to any people what their government shall be, recognizing always that the problem of government is one for the people concerned to work out for themselves and so long as they do not interfere with the life and liberty of other people and other nations, they are free to do as they please.

Conditions in Germany, however, have reached the point where the peace of every nation in the world for all time to come is in jeopardy so long as the Hohenzollerns and the Prussian junkers remain in control. The other nations therefore have a right to say and will say to Germany, doubtless, when the proper time comes, that it must do away with the menace to other nations and other people.

The problem of government can be, and will be, left wholly to the German people as it should be so long as they do not insist upon maintaining, or erecting again, a governmental structure which endangers every other nation.

The men who argue that we have no right to demand the destruction of militarism and the abdication of the Kaiser, his "divine right" doctrine and his family do not understand what individual and national freedom is in its true sense.

"Mail Order" Season

This is the time of year when the mail order houses open the flood gates and pour into the rural communities the deluge of catalogues.

Hundreds, yes thousands, of tons of advertising matter have been and are now being transported through the mails, at an actual and tremendous loss to the government by the big mail order houses in the effort to secure the trade of people with whom they never have, and never expect to, come in contact.

Burdening of the mails with the mail order advertising matter and catalogues is one of the biggest reasons why the Postoffice department is not self supporting.

There has been a great deal said and written advising and warning the people to buy at home. The ground has been thoroughly gone over time and time again. Trade with the people who trade with you is a pretty safe rule to follow. Buy of the men you know—men who will be here next year and the year after, and who stand ready at all times to correct any mistakes and make everything good.

That's not sentiment and its not patriotism; it's a sound business proposition. No man can prosper—no matter what his business is—in a community where the mail order houses maintain a good trade because that community sends its prosperity away to some other community.

That's a plain proposition—a business proposition—nothing else to it.

Business Section Streets

The need to do something to better the condition of the streets in the business section of the city is becoming imperative.

Those stretches of street are full of holes, ruts and gulches. The wretched condition of those roadways is not only unpleasant to travelers on the high way but it is a positive menace. In the effort to avoid the rough places and reduce, as much as possible, the danger of breaking springs or axles, as automobile drivers speed up and slow down and dodge in and out in a manner which wholly multiplies any attempt to enforce traffic regulations or to preserve order in the most congested sections of the whole city. In those sections, in preference to all others, the paving should be smooth and even. Every square foot of the roadway should be the same. There should be no need for vehicle drivers to dodge about to avoid menacing ruts and holes.

The streets in the other sections of the city are in splendid condition. Only in the business section, where we need them most, are they now practically impassable.

We favor the asphalt street for the business section for several reasons. It is the most slightly and the easiest street to ride over, it is nearly noiseless and what is most important, at this time, it can be put down on the foundation, already in, at far less cost than any other kind of street paving.

It is only August and if our city authorities will "get a move on themselves" the few blocks can be finished before winter comes.

Poetry For Today

AFTER THE BATTLE.

They sleep in the moonlight, the battle is over;
They sleep in the starlight, the red charge is done;
They sleep with the bright, silver dew as their cover,
But know not the cost of the battle they've won.

The King on his throne has his purple robes 'round him;
The King on his throne has the homage of men;
He lives in a castle where birthright has bound him,
But whence came his serfs, slaves, vassals—and when?

The centuries pass—'tis a pitiful story—
The ox is still slave to the goad, and the plow;
And men are still slaves to a tyrant's vainglory
Not more in the days of the ancients than now.

But what of the mothers who patiently bore them,
And what of the orphans untimely they leave?
And what of the tears like the dew sprinkled o'er them?
Can the purple and pomp of a King balance these?

They sleep in the moonlight, the battle is over;
They sleep in the starlight, the red charge is done;
They sleep with the pitying dew as their cover,
But know not the cost of the battle they've won.

—Los Angeles Times.

Weather Report

Washington, August 25.—Weather conditions and forecasts for Saturday and Sunday.

New Haven, Conn., Aug. 25.—It was announced here that Captain Winfield S. Overton, U. S. A., a graduate of West Point in 1897 and commandant at the Harvard camp last summer has been appointed by the war department as professor of military science and tactics at Yale university.

Felt For Him.

Bobbie Smith, aged nine, was the shining light of the family, and his father was very proud of him.

"I shall call round and see your teacher," said his fond parent, "and thank him for the kind interest he is taking in you."

"If you do, father, I want to tell you that all the boys in our class are not known by name, but by number only. My number is 25."

In due course the father called at the school and knocked at the door, which was after a few moments opened by the head master.

"Good morning, sir," said Mr. Smith.

"I am the father of 25."

"Indeed," replied the schoolmaster, with surprise, "Come inside, my friend. I can feel for you, for I am the father of twelve myself."—London Globe.

RED CROSS TO ESTABLISH REST PLACES

(By American Press)
Washington, Aug. 25.—Canteens and rest stations for the French and American troops will be established at once in France by the American Red Cross.

The war council has been trying to find out just what the Red Cross could do most effectively to hearten the French army and to give to French soldiers a token of the fact that America is with her ally with all her power. The French army officers have told the Red Cross that canteens and rest stations would do more for the immediate welfare and contentment of the soldiers than anything else that could be done. Therefore, the problem is going to be met thoroughly and at once.

The soldiers come out of the trenches, to go home on leave, mud-stained, vermin-covered, reeking with infection. They are marched to the nearest railroad in that condition, where, perhaps, they find a station with scanty accommodations for a dozen passengers. The Red Cross is going to put shower baths there and laundries and mending and disinfecting rooms, which will remove the menace of dirt and disease which these men carry to their homes. Then there will be rest rooms where they can read and write and play games, to make the transition to civilian life easier, and small stores where they can buy tinware, delicacies, tobacco, and odds and ends. Similar canteens will be opened at the railroad junctions where the men must wait en route.

Mushrooms are appearing in lace as well as straw. Tulle and fine white lace compose this one, banded with pale blue ribbon tied in the back to balance the pink rose in front.

LICENSE REFUSED

A license to wed was Saturday afternoon refused to Alvie Mustard, 29, farmer, this county, and Marjorie Sharp, 17, of Highland county.

The young couple were not aware that the bride must be a resident of the county in which the license is granted.

CAMP PAY ROLL FOR THE WEEK IS ABOUT \$425,000

Chillicothe, O., August 25.—The pay roll for the 12,000 men employed at Camp Sherman this week reached nearly \$425,000 today.

This does not include the pay of more than 2,000 soldiers at the camp.

PROBE I. W. W. SITUATION

By Associated Press Dispatch.

Washington, August 25.—The I. W. W. situation throughout the country and especially in the west where activities are interfering with war industries, is to be investigated with the approval of President Wilson by a committee appointed by the Council of National Defense.

EXPLOSION RESULT OF ALIEN ENEMY

By Associated Press Dispatch.

Washington, August 25.—The explosion of Mare Island Navy Yard in July, killing five and injuring 30 is pronounced in an official report made public today by Secretary Daniels to have been a deliberate act of someone and not an accident.

JACOB CAVINEE DIES SATURDAY

Jacob Cavinee, aged 79, died at the home of his brother, Isaac Cavinee, on the Greenfield pike at 2:15 Saturday afternoon.

Mr. Cavinee was a retired farmer of Morrow county, and has been making his home with his brother for the past three years. He leaves two sons, William of Toledo and Ephraim of the U. S. Army.

Funeral announcements will be made later.

The voting age of Englishwomen has been fixed at thirty. There is little likelihood of a stampede to a polling place that has been made a confessional.—Newark News.

OHIO NEWS

(By American Press)

Fatal Auto Accident.

Akron, O., Aug. 25.—Harry Hawn, who has managed summer theaters in Akron and Canton for twenty years, was almost instantly killed here when an automobile in which he and three other men were riding skidded against a tree.

Admits Slaying Woman.

St. Clairsville, O., Aug. 25.—Thomas Johnson was taken to the Belmont county jail after confessing he cut the throat of Mrs. Mildred Banner when he thought she was robbing him on the river bank here. He is held for second degree murder.

To Receive School Credits.

New Philadelphia, O., Aug. 25.—The Tuscarawas county board of education decided that students in the village and township schools shall assist farmers in harvesting the corn crop this fall. Credits will be allowed for cutting and husking corn.

Killed by Truck.

Chillicothe, O., Aug. 25.—J. L. Tyne, fifty-five, of Columbus, was instantly killed at the army cantonment here when he was run over by an army truck while lying asleep in high weeds. The driver did not see Tyne until the truck was upon him.

Firebugs Suspected.

Cleveland, Aug. 25.—Fire of mysterious origin caused \$50,000 damage to the plant of the Lake Shore Sawmill and Lumber company. City and state fire marshals began an investigation when it was learned that the company was making boxes for the shipping of war munitions.

Dies of Rare Disease.

Columbus, Aug. 25.—Fred Johnson, fifty, of Sidney, died at Protestant hospital here from chronic leukemia, a rare disease. Johnson came to Columbus last week to undergo treatment so that he could have his teeth extracted. After twenty-six teeth were extracted his blood refused to coagulate properly, and he gradually bled to death.

Officials Close Resorts.

Columbus, Aug. 25.—Federal government officials are closing all resorts in the barred zone here, and it is expected that 500 women will be driven out of town under the new military regulations. United States District Attorney Bolin called attention to the fact the law contemplates punishment not only of the agents of immorality, but also the property owners who allow their houses or places to be desecrated.

PLOT DISCOVERED TO DESTROY FOOD

(By American Press)

Cincinnati, Aug. 25.—An alleged statewide plot to destroy foodstuffs was revealed here when Joseph Herschberger, assistant of State Fire Marshal Fleming, announced discovery of a "fire plant" in one of the city's largest wholesale houses.

MUST BEAT BRITON

(By American Press)

Copenhagen, Aug. 25.—England, the arch enemy of Germany, must be beaten down at whatever cost, Emperor William told his troops while on a visit to the Flanders front. The emperor charged that England instigated the war.

More people every day are finding Herald want adds superior.

In Social Circles

The August Kensington of the W. R. C. was held Friday afternoon at the home of Mrs. V. J. Hoppess on East street and proved an afternoon much enjoyed with a large attendance of members and several invited guests.

Assisting Mrs. Hoppess as the afternoon's hostesses were Mesdames Nye Gregg, F. G. Carpenter, J. W. Knedler, Sarah Sollars, Sarah Larimer, Ellen Jenkins, Michael, J. W. Duffee Sarah Thompson.

The afternoon was spent in clipping fracture pillows and diversified with a pleasing little program. Leland Hoppes, the young son of the house, played a pretty piano solo.

Mrs. E. G. Carpenter read a poem, "Somewhere in France," written by her son, Mr. Fred Carpenter. It was a real literary gem and elicited the warm appreciation of the listeners.

Tears filled many eyes while Mrs. Carpenter read a very beautiful poem a tribute which she had written in honor of the late Mrs. Virginia Willis one of the best loved members of the organization and who was named in the year book as one of the August hostesses.

For honor of her guest Miss Mildred Babcock of Lorraine, Miss Ethel Spray entertaining a few guests, Friday night with a jolly little theater party at the Palace theater where they enjoyed Theda Bara in "Heart and Soul."

The additional guest were Misses Frances Merriweather, Margaret Johnson, Anne Lee Shobe, Mabel Briggs and Mrs. H. L. Spray.

The local W. C. T. U. met Friday afternoon in the Federated rooms. It was strictly a business session as it is nearing the end of the year's work there was much business of importance to be finished also the election of officers for the coming year, which resulted in the re-election of all officers. Mrs. Van Gunly, Pres.; and Mesdames Willis, Stafford, Myers and Spray, V. Pres.; Mrs. Christopher, Secy.; and Mrs. Boyer, Treas.

A special social session will be held in two weeks at the home of Mrs. J. W. Willis. The younger mothers of the city are especially invited and an excellent program is being arranged.

Misses Helen and Ruth Richardson delightfully entertained twenty-five friends Friday evening to meet their cousin, Miss Augusta Coates, of Dayton and to renew friendships with their sister, Mrs. Ward Terry, of Dayton.

The Richardson home looked exceedingly pretty with cosmos and early fall flowers and music and informal games contributed to an evening of unmitigated pleasure.

A dainty refreshment was served.

Miss Louise Terry assisted Mr.

PERSONALS

Mrs. Nancy Cripps and granddaughter, of South Vienna, near Springfield are visiting Mrs. J. W. Cripps.

Mrs. Ward Terry, daughter, Louise and son Richard, and Mrs. Martha Simonson, who have been visiting at the home of Mr. R. A. Richardson, return to their home in Dayton Sunday.

Dr. P. M. Cook returned from a business trip to Kansas City, Mo., Friday night.

Mrs. Roy Brown and daughter, Dorothy Dick went to Columbus Friday for a farewell visit with Mrs. Brown's son, Ronald Dick and to see "the boys" of the 2nd Ohio Ambulance Corps off in the afternoon.

Mrs. Austin F. Hopkins returned Friday from Wooster, where she attended the School of Missions and visited friends.

Mr. and Mrs. Will Klever, Dr. and Mrs. Harry Roberts attended the London Fair Friday.

Messrs. Willis Dye, E. W. Dickinson, and Bernard Pringle of Dayton are visiting friends here over Sunday.

Mr. Chas. A. Stafford and family are entertaining today Mr. Safford's uncle, Mr. A. W. Mark, of Crispin, Ill. Mr. C. E. Douglas, wife, who is Mr. Mark's daughter, and their daughter.

Mr. and Mrs. C. W. Lewis returned Friday evening from Detroit, Mich.

Mr. and Mrs. O. L. Blackmore motored to the fair at London Friday.

Mr. and Mrs. Richard Sollars and family were motoring visitors at the London fair Thursday and Friday.

Mr. Fred Sprenger goes back to Marion, Ill. Sunday, leaving his family to continue their visit.

They were accompanied by Mr. and Mrs. Gilbert Bloomer and sons Willard and Wayne, Mrs. Cora Foster of Bloomington and Miss Marjorie Culherson, of this city.

Mr. and Mrs. Will Murray, of Akron, are visiting at the homes of Mr. Murray's brothers, Mr. Art Murray of this city and Mr. Dale Murray of Good Hope, Friday Mr. and Mrs. Art Murray, son William and guests made a motoring trip to Dayton and the aviation field.

Mercer Hufford who has enlisted with the medical department of the 7th U. S. Field Artillery at Camp Robinson, Sparta, Wis., arrived Saturday morning to attend the funeral services of his step-father Mr. H. C. Teachnor, and to accompany his mother to Cincinnati for the burial.

Misses Kathleen Poore and Adrien Arthur, who have been Miss Maxine Kibler's guests, returned to their homes in Portsmouth Saturday.

Prof. Samuel Morris of the Chemistry Department University of Virginia, Moorgantown, Va., is visiting his father, Mr. W. W. Morris, in Bloomington and accompanied his sisters, Misses Jessie and Lora and brother, Mr. Herman Morris, on a motoring trip to Lakeside, Saturday. The party remains at Lakeside for an indefinite stay.

Mr. and Mrs. Forest Horne and family motor over from Dayton Sunday to visit Mr. John W. Wilson and family and to bring home Mrs. Horne's sister, Miss Emma Wilson, from a week's visit.

Mrs. Rae Greenlee, wife and four children of Dayton, Ohio were the week end guests of Mr. Greenlee's uncle and aunt, Mr. and Mrs. R. B. Greenlee of Bloomington.

Mrs. Julia Mumford has returned to her home in Clarksburg after a visit with Mrs. Thomas Yore.

Miss Mabelle Larrimer visited Mrs. L. Evans the last of the week.

Mr. and Mrs. G. N. Teachnor, of Norwood, are here to attend the funeral of their son, Mr. H. C. Teachnor, Dr. R. K. Teachnor, a brother, and wife, of Leesburg, and Mr. and Mrs. Harry Peebles, a sister, of Cincinnati, are also here.

Mr. and Mrs. C. H. Griffin, guest Dr. M. S. Creamer, of Los Angeles, Cal., and Mrs. Fuller Hess made a motoring trip to Cincinnati, Friday Mrs. Hess remains for a visit with her aunt, Mrs. Wood.

Dr. and Mrs. L. P. Howell are spending Sunday in Dayton, to attend the funeral of Dr. Howell's mother, Mrs. Hattie P. Montgomery, and will go to Chillicothe Monday morning for the interment in the family lot at the Chillicothe cemetery.

Miss Edith Roth, of Chillicothe, is spending ten days the guest of Mrs. Joshua McCoy and daughter, Miss Hazel, in Bloomingburg, before going to Cleveland, where she has accepted a position in the primary department of the public schools, and expects to make her future home.

Mrs. Will Trovillo, of Frankfort, is visiting her parents, Mr. and Mrs. A. T. Vincent.

Renick Allen went to Dayton Saturday to bring home a number of the Allen riding horses which have been at the Dayton Country Club.

Mrs. W. B. Hershey returned Saturday afternoon from a visit with her daughter, Mrs. Wm. Vail, at Niles, Ohio.

Mr. and Mrs. B. F. Leland and daughter Miss Esther, leave Monday on a motoring trip to Winona Lake, Indiana, and Warsaw, Indiana, where they will be the guests of Mr. and Mrs. Wm. Sheffield.

Mr. Aaron Hyer and granddaughter Ho Hyer, went to Columbus Friday evening for a week's visit with Mrs. Elwood Jaynes.

Mr. and Mrs. E. M. Neal and family and mother, Mrs. Mary Rankin, spent Friday in Dayton and Fairfield.

Mrs. Walter McCoy, who came over from Springfield to visit with her father, Capt. Chas. Allen, returned to her home Friday. Mr. McCoy was with Mrs. McCoy earlier in the week going on to the London fair.

Miss Mary Jane Collins is expected home this evening from a visit with Miss Mabel Cunningham, at Steubenville. Miss Cunningham and Miss Collins went on to Pittsburgh and took an auto trip through where they visited the battlefield at Gettysburg.

Mr. Edward Bernard of Cincinnati joined his wife and daughter Julia Francis at the home of Mrs. Bernard's mother, Mrs. Jane Willison.

Mrs. Jennie McDoyle leaves Monday evening to visit her mother, Mrs. Lydia Morris, in Columbus.

Miss Edith Wilson went to Columbus today to visit her sister, Mrs. S. J. Stewart.

L. W. Buckmaster was down from Columbus Saturday.

Mrs. Dave Marine had as her guests Thursday Mr. William Moon, Mrs. Margaret Davidson and daughter Mabel of Farmland, Ind.

Rudolph Wolfe, who enlisted in the Marine Corps at Port Royal, S. Carolina, accompanied by his mother, Mrs. R. H. Wolfe, will spend Monday in Sabina with his brother, Mr. Paul Wolfe. Tuesday, Mr. Wolfe returns to Port Royal.

Mr. Samuel Adams and Miss Hattie Hopkins of Indianapolis, Ind., are the guests of Mr. Adams' sister, Mrs. Dave Marine.

MAX G. DICE WRITES LETTER TO THE HERALD

Washington Boy Now at Ft. Logan H. Root, Arkansas, Describes Surroundings and Gives Short Sketch of Regular Army Life.

The Herald:

I am writing you a short letter to let you know how I am located after my arrival at the most ideal of posts, Fort Logan H. Root, Arkansas.

We, of the Medical Department, have the barracks pretty much to ourselves. There are 50 of us in the detachment from Fort Thomas and 50 from Fort Slocum, New York City. They are all mighty good chaps.

Russ Mobley is in the officers' training camp here at the post. I have not seen him yet as the infantry to which he belongs started on a seven days' hike last Saturday, and will not be back until next Sunday.

This is a great place. It's real army life, and I am enjoying every minute of it from reveille at 5:30 a. m. until bed time at 9:00 p. m.

I haven't been down the mountain to Little Rock, yet, but expect to go sometime this week.

I am having some experience in the wards now. We have a ward master—graduate nurse from Bellevue Hospital, N. Y. City.

I expect to get into the operating room soon and eventually into the laboratory.

The climate is invigorating here. While the sun is a little hotter than in Ohio, the air is lighter and free from moisture. We had the first big storm last evening and the atmosphere has been a little sultry today.

I want to say right here that Uncle Sam doesn't starve his soldiers. Why, we have more variety and abundance of food than I ever enjoyed in College. Of course, when we get to France, we will probably be forced to undergo privations, but here everything is above standard. I've gained a few pounds and am brown as a nutmeg.

From the hospital porch we can look for miles across the Arkansas river upon Little Rock and see to the mountains beyond. It is an inspiring sight.

THE INTERESTING PRINCESS EFFECTS WITH US STILL

A COAT DRESS

Almost tailored in its effect of trigness is this black satin afternoon frock fashioned with a monk's collar and cuffs and belted with a girle of the fabric. Deep stitchery and ball buttons serve as the only trimming.

FUEL PLENTIFUL

(Associated Press Cable)

Rotterdam, Netherlands, August 25.—According to experts, the lignite fields in the vicinity of one of the State coal mines near Brunsum, in the southern province of Limburg, are large enough to provide the entire country with fuel for twenty-five years. A concession for their working has been granted, and a mining company formed.

TRADE COMMITTEE

(Associated Press Cable)

London, August 24.—The government has appointed a Belgian Trade Committee to investigate the means of promoting trade and commerce between the British Empire and Belgium.

REPORT PROMISED ON SOLDIERS' INSURANCE FOR NEXT TUESDAY

(By American Press)

Washington, Aug. 25.—Hearings on the administration's soldiers' and sailors' war insurance bill have been completed by a house committee and an effort will be made to report it next Tuesday for immediate consideration.

Vigorous attacks on the measure are expected from two sources, insurance company interests, who oppose the optional insurance feature, and those who want no interference with the existing pension system. Debate may be prolonged several days by the opposition, although ultimate passage by the house is virtually its present form is expected by leaders.

The war insurance measure would have no effect on pensions now being paid, Secretary McAdoo explained in response to an inquiry from an old soldiers' home at Lafayette, Ind.

CHILICOTHE PIKE OPENED TO TRAFFIC

The Chillicothe pike was opened to traffic Saturday morning for the first time since last spring. Much of the pike has been opened to traffic for some time but part of the road has been closed on account of the paving of the eight hundred feet which joins South Fayette street and the pike.

During the last few days the berms or dirt filling at the side of the road has been completed.

The opening of the pike will be a great relief to citizens generally as a long detour was necessary, to reach the pike beyond the improvement.

CRUDE OIL TO WARM RESIDENCES

Dr. H. L. Stitt is installing a new furnace in his bungalow on the Jeffersonville pike, which will burn crude oil, this method of heating having proven very satisfactory wherever used.

It is claimed that the use of crude oil is less expensive and much more satisfactory than burning coal.

Dr. Stitt has purchased 15 barrels of crude oil as his fuel supply for the next few months.

Are your clothes faded? Then use Red Cross Ball Blue; makes them look like new. All grocers.

TO LIBERATE DUTCH SHIPS TO CARRY FOOD

(By American Press)

Washington, Aug. 25.—Belgians will get food quickly and neutrals will have some of their wants supplied through an arrangement entered into by the American food commission and the governments of the neutral European countries.

It was decided to let thirty or more Dutch ships sail at once from an Atlantic port, carrying grain owned by the Netherlands government, on condition that the greater part of the cargoes shall be used for relief of the Belgians.

It was also announced that the Swedish mission had sold at cost 552,000 bushels of wheat in this country to the Belgian relief. The wheat was bought by the Swedish government last January and has been held in elevators ever since. This will go forward immediately in ships to be secured by the Belgian relief commission and will take the cargo space of several large freighters. In return the Swedish government will be allowed to ship 270,000 bushels of rye of the new American crops, which will be available in September or October.

Negotiations between the United States officials and representatives of the neutrals have been in progress for several weeks. Proposal was followed by counter proposal until at one time in looked as if a working agreement was an impossibility. The needs of all the European neutrals have been laid before the food commission and complete statistics furnished regarding supply, consumption, exports, imports, manufacture and per capita requirements.

Norway's case has been presented by the mission headed by Dr. Nansen and complete accord has been reached. It is understood, regarding commodities to go forward to that country immediately. Norway needs foodstuffs and has ships to barter, she is willing to devote 1,000,000 tons to the service of the United States if she can get food in return. It is understood that this offer in part has been accepted.

One of the propositions made by Holland was to turn over to the use of the trade of the entente allies a large share of her merchant fleet, on condition that the ships were not to be sent into the danger zone. Norway would let her ships go without any such proviso. Holland maintained that it would be almost commercial suicide to risk her ships, as it might cut off her immense colonial trade.

RAISING BIG FUND FOR FIGHTING MEN

Mr. Frank M. Bateman, of the American Rolling Mills, located at Middletown, is chairman of a committee named to raise a war fund for

the fighting men sent out from the immense plant of the firm. At the present time 265 men from the firm have enlisted and the draft will take an additional 200 from the pay roll of the firm which has 5,000 persons employed.

A movement was recently started to raise a war fund for the men sent out, and to aid in supporting their dependents, and the first proposal is that one percent of the salary be contributed by the employees for the support of the men and their families. This will raise about \$5,000 each month.

Learning of the intention of the employees to give the amount the management of the company immediately announced that for every dollar raised by the employees the firm would give a dollar.

Mr. Bateman goes to Zanesville Saturday night to organize the employees in the branch mills at that place.

WINDSORS HERE FOR SUNDAY GAME

The Windsors, of Columbus, who finished second in the Capital City League this year will be seen for the first time on the local diamond Sunday afternoon.

Mays, who has been catching for the local team, will not be in the lineup Sunday as he will play with the Panhandles of Columbus. Gheer will take his place behind the bat. Whitted, a local boy, will probably play an outfield position.

The remainder of Washington's lineup will be the same as last Sunday.

MALLOW WINS TWO RACES AT YOUNGSTOWN

On Friday at the Youngstown races, Wert Mallow driving F. A. L. in the 2:17 trot, purse \$500 won first money taking three straight heats in 2:16 1/4; 2:17 1/4 and 2:18 1/4 respectively and driving Bertram McKinney in the 2:16 pace, purse \$500 captured the third, fourth and fifth heats and first money, in 2:12 1/4; 2:11 1/4 and 2:17 1/4 respectively.

Two wins in one day for the same reinsman is some accomplishment.

AH, HA! ANOTHER SPIDER PROPHECY

From Bloomingburg comes the report of another prophetic spider which has chosen his web to talk about the war, and predicts "victory" in terms unmistakable to those who have taken the time to decipher the message which the spider presents.

The Bloomingburg spider is located in the John Windfield garden and has swung its web among the vegetables of the "war garden" in order to display its writing so that "He who runs may read."

I will be in Washington C. H. next Stock Sales Day to purchase **100 Mares** from three to ten years old, weight 1000 to 1300 pounds. Must be in good order and sound.

SISTERS OF COL. CARL REICHMANN LIVE IN GERMANY

Washington, August 25.—Colonel Carl Reichmann, whose nomination as Brigadier General has been held up, specifically denied before a senate Military Subcommittee that he ever had said the army draft law would be so unpopular as to cause civil war, or that German submarine warfare was justified under international law or that American troops should not be sent to France.

Regarding the charge that he had defended German air raids on England, and particularly one in which children in a house, were killed, Colonel Reichmann explained that in a discussion of raids he asked a companion whether English air raids on Zebrugge, Belgium, were any more justified.

The Colonel said he believed from both a military and a personal standpoint troops should be sent to France and that neither his German parentage nor the residence of two sisters in Germany would influence his conduct if he should be placed in charge of soldiers in the fighting lines. He was as anxious to help win the war for America, he declared, as any other American officer.

The committee, which is sitting in executive session, expects to call several witnesses named by Colonel Reichmann and by Senator Poindexter, as well as persons who have written letters to the committee regarding the case.

ABSURD STORIES COMING FROM CAMP

Last week at Camp Sherman there were numerous murders and victims of foul play. Found dead in corn fields were white men and colored men, with their heads caved in, their throats cut and numerous other horrid things. And the news papers didn't have a thing about any of them. Now, what do you think of that?

Well, the reason is that they never happened. If they had, the matter would have been reported to the Intelligence Officer, Captain Fuchs and another thing, the bodies accorded to law, would have to be turned over to the coroner. The intelligence officer knows nothing about the stories. Only says that he heard them. They are characterized as "wild cat stories" from a wild and fevered brain. If such things should happen they must be reported at once to general headquarters. Just another evidence of the fact that people have not yet learned that there is still a strain of booby-boop people who are always sensational, whether they have grounds or not.

The story was going the rounds that the papers didn't dare print the stories for they were censored. That is not true. If such things did happen they would be printed and information and circumstances would not dare be withheld. The public should know them if true, and should any cases develop, it will be given the true facts. Those who prefer, however, to believe the wild cat stories are probably in a receptive attitude and of course this explanation will do them no good.—Scioto Gazette.

TURBANS AGAIN IN THE LEAD IN FALL MILLINERY

Although Riga may fall, military men here doubt that Germany can spare sufficient men to make her drive tel.

That out of the present conflict will rise "regenerated Russia" is the confidence voiced by the United States government in a message to Tereschenko, the Russian foreign minister. The message declares President Wilson rejoices in Russia's determination to devote "all its forces and resources" to final triumph. With tenacity of purpose moving all the allied governments there can be no doubt of the outcome of the conflict now raging," the note adds.

DOWN THE BREEZE
Navy satin, boat shaped, gives this dashing model, most of the effectiveness being captured in the bow of navy blue moire ribbon. Ascot ties are "good form" with tailored shirt waists.

Live Wires of Washington C. H.

Violet-Rays for Health and Beauty

ARE OBTAINED WITH THE VIOLETTA HIGH-FREQUENCY GENERATOR—USED BY PHYSICIANS, BEAUTY SPECIALISTS, BARBERS, CHOROPHIDISTS, OSTEOPATHS, ETC.

Violet-Rays for health and beauty have become an established principle and an instrument has been perfected which generates this quality of electrical current, and which is most convenient and easily operated by the doctor, the beauty specialist, the barber or by the subject in his own home. The Violet-Ray High-Frequency Current was first discovered about 1891, and for the next several years was in the stage of investigation. At the present time, it is an accepted indispensable necessity. It brings within every one's reach the health-giving qualities of electricity, and brings them in a form that is SAFE, PLEASANT and BENEFICIAL to the highest degree. The Violet-Ray High-Frequency is applied thru vacuum glass attachments or electrodes, which are excited to a beautiful violet color. It produces a cellular message while the treatments do not "shock" or cause pain. For sick patients and nervous subjects, its sedative effect is extremely beneficial and assists in recovery. It also generates enormous quantities of ozone, which is driven into the tissues or inhaled into the lungs, and where there is ozone, germs and toxins cannot exist. When daily treatments are given with the VIOLETTA, as the instrument is called, the following effects are obtainable: Return of sleep; increase of strength and vitality; increase of cheerfulness and power for work; improvement in appetite, digestion, etc.; increase of blood supply to joints of application; increase of local nutrition and progressive improvement in the general functions; increase of secretions; soothing effects in the nervous system; increase of oxygen in the blood.

DISEASES TREATED WITH THE VIOLETTA
Asthma, Barber's Itch, Boils, Black heads, Bunions, Callous, Catarrh, Chills, Colds, Corns, Constipation, Dandruff, Deafness, Earache, Eczema, Eye-disease, Falling Hair, Hay Fever, Headache, Gout, Insomnia, Lumbago, Nervousness, Neuralgia, Neuritis, Obesity, Pains, Paralysis, Piles, Pimples, Pyorrhea, Rheumatism, Skin Diseases, Sore Throat, Sprains, Tonsillitis, Whooping Cough, Writer's Cramp. The VIOLETTA High-Frequency Generator is manufactured by the Hleadon-Dun Co. 1117 S. Des Plaines St., Chicago, and has established agencies in leading American and foreign cities. The generator is a compact instrument of scientific construction, is in one piece, uses only a minimum amount of current and a complete with variously designed electrodes to meet all requirements for beauty culture and general uses.

HAVE CONFIDENCE IN NEW RUSSIA
(By American Press)

Washington, Aug. 25.—The United States government extended a further credit of \$100,000,000 to Russia. This was Secretary McAdoo's answer to rumors that fear of Russia's collapse had created a feeling of unrest and lack of confidence in this country.

Russia's credit is now \$275,000,000, only a beginning of the efforts this government will make to assist the new democracy to its feet. Plans for furnishing vast supplies have been completed.

That Russia will fight on was the general official view here. Secretary of State Lansing officially denied stories of general pessimism in government quarters over the Russian situation. "I don't think there is any feeling that Russia is on the verge of a collapse," he said. "In fact, she is stronger today than she was a month ago, both from the general government and military standpoint."

Although Riga may fall, military men here doubt that Germany can spare sufficient men to make her drive tel. That out of the present conflict will rise "regenerated Russia" is the confidence voiced by the United States government in a message to Tereschenko, the Russian foreign minister. The message declares President Wilson rejoices in Russia's determination to devote "all its forces and resources" to final triumph. With tenacity of purpose moving all the allied governments there can be no doubt of the outcome of the conflict now raging," the note adds.

With the wonderful facilities of the new plant the J. A. Long Co. will be enabled to further extend the scope of its activities. It expects to manufacture during the coming year 10,000,000 lbs. of butter, and the total sales of the products and by-products of this Company are expected to reach 15,000,000. It will now be able to care for the many new stations added daily. "These managers are put in charge of these stations and the territory of his company, which now completely covers two states, will soon extend over many states."

PROMISE CHEAP COAL

(By American Press)

Washington, Aug. 25.—Cheaper coal for the American household will be one of the first aims of the new fuel administration, as set forth by Dr. H. A. Garfield, its head. A scale of profits for the retailer was suggested as an early possibility in the government's program for complete control of the coal industry. If the price fixing plan fails, the government will not hesitate to enforce provisions of the food bill giving it authority to regulate coal at the mines and sell it to the public generally.

TAX SINGLE MEN

(By American Press)

Melbourne, Aug. 25.—A special tax on single men and childless widowers in Australia, the proceeds to be used to bring home soldiers ordered returned, was announced by the Australian financial minister.

35,000 Farmers

FIND IT PROFITABLE TO SELL THEIR CREAM PRODUCTION TO THE J. A. LONG CO.—LOCAL STATION IS ONE OF 300 BRANCHES WITH HEADQUARTERS AT UNION CITY, INDIANA—PRODUCES 5,000,000 LBS. OF BUTTER DURING 1916—CAPACITY OF NEW CREAMERY AT UNION CITY IS BIGGEST IN THE WORLD.

It is quite probable that many farmers and dairymen of Fayette and adjoining counties, who find it profitable to sell their cream to the J. A. Long Co., do not realize the great importance of this concern, nor the magnitude of the industry with which they so profitably and pleasantly co-operate. The benefit directly derived by them from association with this prosperous company is obvious. Before the J. A. Long Co. entered the field with its splendid cash system, the farmers had no other market than the distant creameries. A few local creameries had been established from time to time, but the uncertainty of their tests, and the long interval between delivery and settlement detracted greatly from the profits of the farmer. But with the establishment at Washington C. H. of a branch of the J. A. Long Co., these difficulties were immediately removed, and the farmers relieved of the distressing troubles incident to the marketing of their dairy products in the old way. The saving in both time and money was at once apparent to them.

The J. A. Long Co. pays the highest price and always pays it cash. It is interested in the farmers, seeks to help them in every way possible, and tries to make the cream-producing business profitable for them. Between the Company and its thousands of patrons the utmost cordiality of feeling obtains, and in the states of Ohio and Indiana there are now entered upon the books of this giant company the names of more than 35,000 satisfied patrons.

In order that our readers may better understand the magnitude of this industry, we have compiled an accurate outline of the Company's activities. Scattered throughout the states of Ohio and Indiana are some three hundred cream stations, which buy the cream in their locality and ship it each day to the main plant. For this cream the farmers annually receive hundreds of thousands of dollars from The J. A. Long Co. At the Union City, Indiana, plant this cream is churned into butter and shipped to the big butter markets of the world. Prior to the world-war much of the Company's output found its way to far away Japan and Russia, but the difficulties of ocean transportation became so acute with the beginning of the war that the foreign shipments were greatly interfered with.

During the year 1916 the J. A. Long Co. handled an average of 10,000 gallons of cream a day, and manufactured 5,000,000 lbs. of butter. 2,000,000 worth of butter was manufactured and shipped to all parts of the world, and an accrued by-product of butter-milk, valuing \$20,000, found ready sale in all localities. Its special brands of butter are "Red 73" creamery butter, "Red 73" creamery butter, "Red 73" creamery butter, and a considerable output of sweet butter. Because of the superior quality of these brands, the Company has been unable to supply all its customers, and in order to meet the growing demand for its products it has

ERECTED A NEW PLANT
At Union City, Indiana, which is now nearing completion. This plant, in point of efficiency, scientific arrangement, and sanitation, is the most perfect ever designed. It is a model of iron-proof construction, the interior of old stone and the structural work of the most substantial type known to modern architects. The walls and ceilings are chemically treated in a way to insure sanitation and also contribute to the clean, wholesome beauty of the building. The building includes all the departments of the reamery, a septic tank which sterilizes all waste and insures faultless sanitation, laboratories for experimental work, lactic analysis, bacterial generation and progression, shower baths, receiving room, and office rooms for the manager, his assistants, and office force. The churns, vats and sterilizing machinery have already been installed in the new building, together with the newest type of can-washer, which is one of the greatest mechanical contrivances of modern inventive genius.

With the wonderful facilities of the new plant the J. A. Long Co. will be enabled to further extend the scope of its activities. It expects to manufacture during the coming year 10,000,000 lbs. of butter, and the total sales of the products and by-products of this Company are expected to reach 15,000,000. It will now be able to care for the many new stations added daily. "These managers are put in charge of these stations and the territory of his company, which now completely covers two states, will soon extend over many states."

Administration.
The J. A. Long Co. is a splendid organization of qualified men in every department. Mr. J. A. Long, who founded the industry in 1883, is a high type of the self-made business man of the 20th century. M. P. Knudsen, general manager, is a leader in every respect, and his efficient generalship is a conspicuous element in the Company's success. Mr. George Sonnich, who is in charge of the 300 cream stations, is a hustler with no superior anywhere. About these men's grouped a corps of level-headed business assistants,—each one a specialist in his line, each one devoted to the interests of the institution of which he is a part, and each one contributing an important spoke in the great wheel of this splendid industry.

Washington, Aug. 25.—Nearly two billion dollars for 1272 ships, aggregating 7,668,600 tons, is the United States shipping board's program to beat the submarine, it was officially announced here.

New Canning Plant

NOW IN FULL OPERATION—MEANS BIG INFLUX OF MONEY TO THE CITY—IS ONE OF 12 BRANCHES OPERATED BY THE SEARS & NICHOLS CANNING CO. OF CHILLICOTHE.

Thru the activities of the new cannerly just opened in this city by the Sears & Nichols Canning Co., 100 people will be receiving profitable employment and the sum of \$1000 in weekly pay roll will be added to the commercial incomes of this city. The company expects to put up 1,500,000 cans of their products before the close of the season and the plant has been equipped with new machinery, the cost of having expended upwards of \$15,000 in its mechanical equipment alone. The new plant is one of 12 branches, operated by The Sears & Nichols Canning Co., which is the largest independent industry in the country devoted to the growing and packing of vegetables. Its headquarters are at Chillicothe, and it is the proprietor of the famous "Sugar Loaf" products. The factories are located in Ohio, Indiana and Michigan, in the centers of rich vegetable producing sections, and each consuming practically the entire output of cool headed tomatoes, beans, etc., in its respective locality. They have an option on 1300 acres of corn grown in this section, and this entire production will be canned in the local factory. Their premises are absolutely sanitary in every respect, and include offices, receiving dept. of raw products, mixing room, canneries, packing room, shipping room, warehouses, etc. The canning department is a model of system, efficiency and sanitation. The cooking utensils and containers are of white enamel, and 13 kettles are used for cooking or heating of the vegetables. Each kettle is subjected to a regulated temperature of steam, and equipped with an automatic electric time clock which gives notice the minute the contents have been heated or cooked to the desired point. In the mixing room, the vegetables are carefully sorted and classified for grades. The peas are sifted thru a succession of screens, which results in 5 sizes, so that each grade is exactly uniform. The corn machines have a capacity of 18 cans per minute. All produce is subjected to several washings before being cooked, and the sanitary can-containers are thoroughly sterilized before filling. The company will buy the produce of the farmers of the surrounding community. The plant has excellent shipping facilities, a private siding leaving from the shipping platforms to the B. & O. R. R. tracks, and they will ship out 3 carloads daily. The Chillicothe plant is one of the big concerns of that community, distributing a weekly payroll of over \$1000. The manager of the Washington plant is Mr. H. J. Bliss, who has been identified with the company for the past 10 years, and is one of their most experienced and responsible men. The officers and directors include: F. M. Nichols, Pres. W. J. Sears, 1st V. P. Gen. Mgr.; L. A. Sears, 2nd V. P. James Reichelderfer, 3rd V. P.; C. H. Sears, Treas.; J. H. Birnie, Sec.; W. H. Sears, Chief Counsel; Wayne Caldwell, E. W. Reichelderfer and Hugh Ritenour.

The Cherry Hotel

POPULAR WITH PUBLIC—UNSURPASSED ACCOMMODATIONS—UP-TO-DATE CAFETERIA IN CONNECTION.

"Blessed be his name who hath appointed the quiet night to follow the busy day, and the calm sleep to refresh the wearied limbs and to compose the troubled spirit." Thus wrote the great Walter Scott, a century ago, and to this day, the traveling public as well as the immortal bard, appreciates the necessity and sings the pleasures of sweet repose under most favorable conditions, such as may be had at the Cherry Hotel. Mr. C. H. Griffin became proprietor of this hotel 5 years ago and one year ago adopted the Cafeteria system. The Cherry Hotel is a modern 4-story brick building, having 75 rooms, and accommodating 150 guests. All rooms are handsomely furnished with new carpets, comfortable beds, immaculate linens, electric lights, call bells, hot and cold running water, steam heat, etc. The rooms range in price from 75 cents to \$1.50 per day, and the hotel is centrally located, being convenient to the shopping district, the amusement resorts, and within 5 minutes walk from all R. R. stations. Every hotel is measured by the meals it serves and the up-to-date cafeteria which is operated in connection is one of the best recommendations of Cherry service. From 200 to 300 people daily partake of its excellent meals. It is conducted on a system of immaculate cleanliness and sanitation, and its method does away with the "delay, linger and wait" of the old-time waiter service. It is very possible for patrons to enter the Cherry Cafeteria and be abundantly served in 5 minutes' time, and he has the additional satisfaction of inspecting every dish before selecting it, having his food fresh and hot when he sits down to partake of it, and of ordering as little or as much as he wishes.

KORNILOFF SUPPORTED BY THE COSSACKS

(By American Press)

Petrograd, Aug. 25.—The council of all Cossacks in assembly has voted full confidence in Lieutenant General Korniloff, commander in chief of the Russian armies, and Premier Kerensky. The question arose following a demand published in Izvestia, organ of the council of soldiers and workers' delegates, that Lieutenant General Korniloff be dismissed because of the strict regime he instituted in the army.

Buick Cars Stand Test

FOR ALL CLASSES OF USE—COMPLETE NEW LINE FOR 1918 NOW ON DISPLAY BY JOHNSON AUTO SALES CO., W. COURT ST.

The Buick line of 4 and 6 cylinder valve-in-head motor cars for 1918, is complete from every standpoint of finish and refinement, and these autos are handled in this city by the Johnson Auto Sales Co., whose quarters are located on W. Court St. Mr. Johnson is one of the best automobile specialists in this part of the state, and his establishment is recognized as the largest agency for high-class cars in the County. He wisely confines his activities to the sale of Buick cars and to the handling of Buick supplies and accessories, as his experience in the business and his knowledge of automobile construction convinces him that there is no other car which can "stand up" with the Buick for general efficiency, beauty and durability. His sales record for 1917 Model cars has far surpassed the large volume of his 1916 Model business. The Buick was the first car to install the valve-in-head motor and in its special construction this motor is without a peer. Every part of a Buick car can be secured at his sales office, so that every Buick owner may be assured that his car will be in condition every day of the year. The name Buick is the quality guarantee of an organization with nearly 20 years' experience in building high-grade valve-in-head motor cars. During this time, the valve-in-head principle of motor construction has been refined and developed with the result that the Buick valve-in-head has for a long period of time held an enviable reputation in the motor world. The new line for 1918 is composed entirely of 4's and 6's and its 8 models provide a car for every demand. In each particular style, nothing is overlooked in beauty, elegance and completeness of finish, grade of workmanship, or quality of materials. You can buy a 3-passenger roadster, 5-passenger touring car, 4-passenger touring coupe, 3-passenger sedan, 7-passenger closed touring car, 2-passenger roadster, and in each you know that you are getting the best car of superb Buick construction in its particular style." The Johnson Auto Sales room is a light modern apartment, 20x20 ft. in area, and affords excellent convenience in displaying the new cars.

J. E. Andrews -Cement

18 SILO SPECIALIST AND RECEIVES CONTRACTS FOR MONOLITHIC SILOS IN ALL PARTS OF THE COUNTY—ERECTED LARGEST CONCRETE SILO IN THIS PART OF U. S.

Concrete conquers the farmer's greatest enemy—fire. Old wood barns may burn, but the farmer's feed is safe in a concrete silo. Concrete for the barn, too, is a logical step. In this county farmers have the services of a specialist in monolithic concrete silos and in general concrete construction. We refer to Mr. J. E. Andrews, who has been in business for himself for the past 11 years, and has the distinction of being the builder of the largest concrete silo in this part of the U. S. which he recently erected for Humphrey Jones on his Fayette County farm. This silo was of the monolithic type, which means one piece, or continuous concrete construction from top to bottom. It is 24 ft. in dia., 111 ft. high, and on the top of this structure is a supply tank that will contain 50,000 gallon. The silo and other equipment costing \$5000. Concrete grows stronger and tougher with age, outlasting almost every other known material, and is fire proof. It also is zero proof and the contents of a silo will be unaffected when the temperature is even 30 below zero. Mr. Andrews specializes in concrete farm work generally, as the erection of stables, barns, and other buildings and in concrete sanitary drainage in stables, pigsties, horse and cow-barns, etc. He will modernize old unsanitary farm buildings with cement floors, cement posts, stalls, etc., cement stock watering tanks, henhouses, walls stall and copings and a continual cement drainage plant, extending from the barn to the water outlet. Concerning concrete construction, Mr. Andrews says: "Silo fire is one of the great losses to the farmer as in it his entire year's production of feed is stored. Concrete silos of the monolithic type are absolutely fire-proof and might be used for chimneys. It is also practically cyclone proof, and this fact alone should commend to the farmers as especially in the last few years, the loss from cyclone and tornadoes has far exceeded that from fire." Mr. Andrews is busy throughout the entire year in the conclusion of contracts involving the very latest scientific improvement.

AMERICAN LINERS ENGAGE U-BOATS

(By American Press)

Washington, Aug. 25.—Bringing details of three sea fights between American vessels and German submarines, two liners, flying the United States flag, have arrived at an American port. One U-boat was sunk, passengers reported.

Officers on one liner declared their ship put a submarine to flight on the outward voyage to England without firing a shot. The undersea raider was sighted 600 yards to starboard. The liner whirled and attempted to ram it. Submerging, the submarine disappeared. Passengers on another big American liner told of exchanging eighty-five shots with a U-boat. She dodged two torpedoes and escaped. Sailors of the tanker Navajo, burned at sea when an oil pipe burst, declared they fought and sank a submarine off the Irish coast, July 5.

YEP! CADETS HIKE TO CAMP ALRIGHT BUT SLEEP LITTLE

Two Score Militarists on Hike to McCoy Farm and Have Much Sport During Hours of Darkness—Password Was "Pershing"—Sore Feet Plentiful.

Forty strong the Y. M. C. A. Cadets corps marched forth on their night hike Friday evening. The company marched to the A. B. McCoy farm near Sugar creek three and one half miles south of town, on the Leesburg pike. Only three men, the commissioned officers, knew the destination of the troop. The men had been informed that a hike would be taken to "some where in Fayette county."

The company formed at the Y. M. C. A. at exactly 6:35 Friday evening and after instructions marched from the building. As soon as the city limit was reached "route step" was given which means that the men are at liberty to talk. When about a mile and a half from the city a horse attached to a buggy containing two young men became frightened at the company with their "quaker guns" and tried to leap over a barbed wire fence. A wire slipped under the shoe of the horse and it was necessary to halt a passing automobile and secure a pair of pliers with which to cut the wire. This caused a delay of half an hour. The company reached the camp without further incident.

Immediately upon their arrival at the camp arms were stacked and fires built. The men then ate their supper, cooking their "weenies" over the blazing fire. At ten o'clock the company went to sleep (?) after the guard was posted, which consisted of seven men.

The guard was posted four times during the night, and was discontinued at three o'clock. The men had been informed that a raid would be attempted and every guard was on the alert. Little sleep was engaged in by the forty cadets.

The countersigns were "Pershing" or "Hastings" and only those who were connected with the camp were permitted to enter.

At four o'clock the company was formed and after "setting up" exercises led by Sergeant Parker, breakfast was served. The air was very chilly and the fires were replenished with fuel and the cadets warmed up before starting the return trip.

On the return several of the young boys developed stone bruises and were forced to drop behind and take a slower pace. The return trip was made in one hour and fifteen minutes, which was good time, considering that many of the boys were small.

After going to the Y. M. C. A. the

EXECUTOR'S SALE
OF REAL ESTATE
In pursuance of an order of the Probate Court of Fayette County Ohio in case No. 2405, I as executor of the last will and testament of Lewis Popejoy, deceased, will offer for sale at public auction on Saturday the 5th day of September, 1917 at 2 o'clock p. m. at the south door of the Court House Washington C. H., Ohio the following described real estate situated in Fayette County, Ohio, to-wit:

Being a part of the late home farm of John Popejoy late of Fayette County, Ohio deceased bounded and described as follows, to-wit: Beginning at two burr oaks in the line of James Beatty and corner to the Thomas Short farm; thence with Short's line N. 10 degrees E. 96 poles to a stone corner to Moore's land; thence N. 49 degrees, E. 15 degrees 82 1/2 poles to a stone crossing the road at 78 1/2 poles; thence with the line of Eddin's Survey E. 64 1/2 poles to a stone; thence S. 60 degrees—60 1/2 poles to the line of Beatty where it crosses the ditch; thence with his line S. 14 degrees, W. 10 poles to two white oaks; thence S. 45 degrees W. 128 poles to two barren oaks crossing the road at 36 poles; thence N. 88 deg. 30 minutes W. 85 1/4 poles to the beginning, containing 118 1/2 acres more or less and part of Samuel Eddin's Survey No. 863. Appraised at \$14,843.70.

Terms of sale—One third cash, one third in one year and one third in two years from day of sale with interest at six per cent per annum payable annually; deferred payments to be secured by mortgage upon the premises sold. Or the purchaser may pay all cash at his option.

Possession given on March 1st 1918 but with right to sow wheat in corn land in fall of 1917.

W. E. IRELAND, Executor of Lewis Popejoy, deceased. Dated August 2, 1917.
CREAMER, CREAMER THOMPSON, Attorneys. 31 14

company was dismissed at 6:15. All of the members of the company were delighted with the trip and it is expected that another trip will be taken in the near future.

B. & O. TO GIVE OLD TIES TO THE POOR

The Baltimore & Ohio railroad company has decided to give the old discarded ties to those in need of fuel. Heretofore it has been the custom to burn the ties. This action will probably alleviate a great deal of suffering during the winter and it is expected that it will meet with general approval.

The old ties on both the B. & O. and what was formerly the C. H. & D. will be given away. Those desiring the ties should apply to the railroad agents.

CLOSING DAY OF CLINTON BAPTIST ASSOCIATION MEET

The Vice Moderator, Rev. Robert Allbaugh, of Jamestown, O., presided. The introductory sermon full of spiritual truth was preached by Rev. T. L. Wooten of Blanchester, on the theme: "The Lord of Glory."

The reading of the church letter followed, describing their activities, and reflecting their life, showed progress and gains, and the deepening of the spiritual life.

At 1:30 p. m. devotional services were conducted by Rev. G. L. Hart. The annual election of officers for the ensuing year resulted as follows:

Mr. Howard McCune of Wilmington, Moderator; Mr. Wm. McCord of Washington C. H., vice Moderator; Mr. Howard Callett of Wilmington, clerk and trustee.

Strong addresses by Dr. G. W. Lasher of Cincinnati on "The Religious Condition of the World and the Great War"

Dr. E. N. Harris, a missionary for many years in Burma gave a ringing informing address on his work there.

Dr. J. E. Chambers of Granville spoke with great effect on religious work among the foreigners in this country.

In the evening Mrs. John Cave of Greenfield presided and the first hour was devoted to the women's work.

A fine address was given by Miss Mary Robinson of Washington C. H., secretary of the World Wide Guild, a young woman's missionary organization on the work of the Guild.

Miss Anna Vance of Hillsboro who has charge of the missionary work of the Children's Crusade, gave a very interesting description of their enterprise.

Mrs. Thomas Moody, a missionary for twenty seven years in Africa, and home on furlough, gave an intensely impressive address on that country.

The association closed with an eloquent sermon by Rev. Leo Brown of Greenfield, from Luke 21:28, taking as his subject: "The Three-fold Drama of Redemption."

In numbers, in hospitality, fellowship, and spiritual interest, it was unanimously felt that this was one of the best meetings this Association ever held. The next annual meeting will be held in Wilmington next August.

Sunday School at 9:45 a. m.
Testimonial meeting, Wednesday 8 p. m.
Reading room open daily except Sundays and holidays, 2-4 p. m.

The board also acted on bids received for the transportation of the pupils who formerly attended school at the Chaffin school No. 6, to the Camp View district. W. E. Shultz was the low bidder and was accepted at \$45 per month.

The Board of Education furnishes the wagon and Mr. Shultz the team. This transfer is made necessary, on account of the new building being erected at Chaffin.

UP GOES PRICE OF OIL AND GASOLINE

The Standard Oil Company announced Saturday morning that beginning Monday the price of gasoline would be 25c per gallon and refined oil (kerosene) would be advanced one cent per gallon, or to 12c.

LIVE STOCK MEN ARE OBJECTING TO DRAFT LAWS INTERPRETATION

(By American Press)
Chicago, Aug. 25.—Resolutions calling for modifications in the interpretation and administration of the draft law were adopted at the annual meeting of the National Live Stock Shippers' Protective league, which opened at the stockyards here. The resolutions were ordered sent to President Wilson, following a report to the convention by W. R. Stubbs, former governor of Kansas, in which it was said construction placed upon and the execution of the draft law was taking competent men from the farms of the country to an extent that threatened to curtail seriously the production of foodstuffs. "The proposition that skilled farm labor be replaced by untrained men from the cities was tried by Great Britain, with disastrous results," the report said. "We feel that the United States should not repeat the mistake. The present interpretation of the draft law is sure to reduce food production."

GASOLINE SHORTAGE FEARED BY OFFICIALS

(By American Press)
Washington, Aug. 25.—Danger that the country's increased military and industrial demands for gasoline and other petroleum products may not be filled because of lack of equipment for drilling new wells, has been brought to the attention of the council of national defense by the bureau of mines. Director Manning of the bureau said he was hopeful that arrangements would be made by the council whereby materials from the steel industry and other supplies would be speedily furnished oil producers. "The situation is critical," he said. "At the present time drilling is being curtailed, costs of oil well supplies have been increased, and it has become impossible to get them in adequate quantities for any price. The situation is worse than at any time since the war started. Were no wells to be drilled for one year's time, our petroleum production would drop at least one-fourth."

SIDEWALK VISIBLE AFTER MANY YEARS

After 10, these many years, the brick sidewalk on the north side of the Central School grounds has been bared to daylight once more, after a portion of it from one foot to three feet in width had been covered with soil and overgrown with grass and weeds, resulting in general discomfort to all pedestrians who were compelled to use the walk during rainy weather.

The bank of earth along the sidewalk has held water securely so that the condition of the walk was very bad, and highly dangerous.

Friday, however, a man was put to work on the job and in a remarkably short time had excavated the sidewalk and brought it safely from its subterranean retreat, to the great relief of the large number who use it walk.
